LIGHTWEIGHT WITHOUT SUCTION. EFFICIENT. MANOEUVRABLE. ECONOMICAL.

K 80|40

- The manually-operated pedestrian, cost-effective sweepers for indoor and outdoor use in small to medium areas.
- Clean to the edge: dual side brushes as part of the standard equipment sweep all curbs and corners residue-free.
- Operating handle can be folded down for space saving transport and storage.
- Lightweight but sturdy: impact-resistant and weatherproof polyethylene chassis, extremely durable polyamide rollers and side brushes.
- Operator friendly: simple changes of roller brushes and side brushes, easy access to waste container and technical compartment.
- Standard large sweeping capacity: the waste container holds 40 litres.
- The Entry-Level Model offering convincing price-performance-ratio, low weight and simple operating – efficient up to 1000 square metres.
- Clean thoroughly for longer: two brush rollers rotating in opposite directions clean twice as thoroughly and transport all debris into the waste container – for a good filling level of up to 100 percent and fewer stops for emptying the waste container.

K 80|40

L x W x H	800 x 660 x 330 mm
Sweeping principle	overthrow
Working width w/o side brushes	470 mm
with 1 side brush	–
with 2 side brushes	800 mm
Theoretical coverage max.	2800 m ² /h
Empty weight	14 kg
Waste container	40 l

TRACTION

Mode of drive	manual
