THERMOPAD. THERMO-ACTIVE CARPET CARE. UNIQUE. AND ONLY FROM COLUMBUS.

Thermopad

- ❶ Patented, economical damp cleaning system to leave carpeted floors in offices, businesses, hotel rooms and IT centres clean and immediately usable.
- ❷ Better for the environment: the moistened pad allows for the deep and thorough cleaning of carpets with minimal use of cleaning agents.
- ❸ Impressive operating principle: the cleaning agent uses heat to quickly loosen even worn-in dirt, which is picked up fast and without residue by the Queen Bonnet Pad.
- ❹ The special cleaner Maxil can be sprayed easily and evenly onto the floor with the pressure sprayer, and worn-in stains can be additionally targeted and treated.
- ❺ The system works equally effectively on all kinds of carpet and contributes to maintaining the quality of the flooring.
- ❻ Expanded spectrum of uses: the Thermopad is also suitable for oiling of parquet and wooden floors – with less oil, deeper penetration and significantly shorter drying times compared to conventional methods.
- ❼ Whisper quiet: the machine produces very little noise when in operation and can be used during working hours.
- ❽ What's more, by using the Thermopad, wax stains in churches or catering areas can be quickly loosened and removed without leaving residue.
- ❾ The heat supply can be altered by adjusting the thermostat, depending on the textile material.

Thermopad

L x W x H	450 x 565 x 1170 mm
Working width	430 mm
Ground clearance max.	135 mm
Working height max.	290 mm
Noise level	63 dB(A)
Weight	35 kg

ELECTRICAL DATA

Rated voltage	230 V / 50 Hz
Power total	3050 W
Power heater fan	2150 W
Driving motor	900 W
Mains cable	12 m

BRUSHES AND PAD HOLDERS

Speed	180 rpm
